

Bovesfield Primary School

Curriculum vision

Our school vision is for children at Bovesfield to...

Be confident

Be listened to and feel loved

Be self-regulating and feel safe

Become critical thinkers

Feel included and valued

Feel unique and be proud of themselves and their achievements

Be enthusiastic and develop resilience

Be determined and knowledgeable

Become independent and be courageous

To achieve this we need a curriculum which gives children the opportunity to:

Develop a rich vocabulary

Explore, think critically, ask questions and try new ideas

Articulate their thoughts, feelings and ideas to a range of audiences and in a range of contexts

Develop 'real life' skills

Visit a range of places and have a wide range of experiences – physical, emotional, sensory, artistic and cultural

Become enterprising, independent and resilient

Solve problems independently

Develop a thirst for knowledge

Build on prior learning and make links across areas of learning

Feel valued, cared for and respected

Work effectively with others

Be proud of their efforts and achievements

Develop the belief that they can aim high in the future and achieve their dreams

Be proud that they belong to a diverse school community

We are currently reviewing the content and sequence of learning in each curriculum area to ensure that as they move through school, children know more, remember more and can do more within each subject. This will result in them being ready for each new stage of their education.
